

# MakerEd

## Purpose, People, & Parts

This planning tool offers guiding questions and themes to help you design and plan makerspaces and spaces for making:

- **Purpose:** What is your maker education?
- **People:** Who makes up your maker education?
- **Parts & Pieces:** What are the tools and materials that you need to make?

Dive into designing and planning a space for making by choosing a theme and brainstorming the potential answers to the questions provided. For a more advanced activity, determine the intersections between two or three themes within the Venn diagram.

*This planning tool is adapted from the [Making+Learning framework](#) from the [Children's Museum of Pittsburgh](#) and the [Institute of Museum and Library Services](#).*
